

LIVE IN COLOR

Infinite selection and environmental sustainability, in perfect harmony

Coral Architectural Products offers industry-leading powder coat technology providing durable solutions in limitless color options to meet every project's design goals. Powder coatings provide a solvent-free finish with exceptional color retention and gloss to help projects stand out, especially in high-traffic areas requiring long-term resilience. And with flexible ordering, no job is too big, or too small.

Limitless Colors

Enhanced aesthetics with a smooth, even finish in nearly limitless gloss and texture color options that comply to AAMA 2604 and 2605.

Sustainable

A more environmentally sustainable process with negligible VOC emissions that offers resilient abrasion resistance for long-term use. Available on our recycled aluminum products for LEED[®] credits in multiple categories.

Flexible Orders

Flexibility in volume and order quantity. Whether you need one door in a brand-specific color or an entire project in colors of the rainbow, our in-house system can deliver.
